

An insurance practice specializing in wealth protection for professional corporations.

M.Y. Professional Planning Inc.

Marc Simard is a recognized leader and expert in protecting the wealth of successful professionals.

Marc has over a dozen years experience working for London Life, Canada's oldest and most highly regarded insurance company. Marc rose through the ranks to become a Manager of the Winnipeg Office for five years.

In 2010, Marc successfully launched a new professional corporation which he named M.Y. Professional Planning Inc. This new venture gives Marc the flexibility to continue to sell the top notch products from London Life as well as seek top notch products from other companies such as Great West Life, Sun-Life etc. Marc has invited other highly experienced insurance and investment experts to join his professional corporation. By doing so Marc's corporation now proudly offers a broad range of insurance and financial services, such as: personal life, critical illness, disability insurance for individuals, as well as group health, dental and disability insurance for companies.

Wealth Protection for Dentists.

As an insurance expert for professional corporations, Marc has evolved into an insurance specialist for young Dentists. As dental students become professionals and later evolve to business owners, their need for wealth protection changes. Why is this important? Because there are several insurance solutions that can be invested in early in one's career that offset much larger insurance premiums down the road when the need for risk avoidance is much higher.

If you are interested in a no-hassle discussion on the facts about insurance from an expert, don't hesitate to contact Marc personally @ **797-3479** or e-mail him directly at marc.simard@myprofessionalplanning.com

“By protecting the wealth of your corporation, we also protect the wealth of your staff and their beneficiaries.”

Marc Simard
Insurance Expert
Specializing in wealth protection for professional corporations.

Marc's passion is to work with young professionals by helping them build sound wealth protection plans designed to evolve with their changing needs.

As an owner of a vibrant and successful insurance practice, Marc can relate to young dentists who dream of owning their own dental practice in the future.
